## PRODUCT DATA SHEET

# OC FUEL INJECTOR CLEANER

### Product Description

**OC FUEL INJECTOR CLEANER** is designed to deliver maximum performance, economy & efficiency. It is well known that fuel quality varies dramatically for many reasons, including the source of crude from which the fuel is distilled and the time of the year (varying temperature conditions) etc.

### Applications

**OC FUEL INJECTOR CLEANER** should be added to all stored fuel, or when filling the tanks of the relevant piece of equipment. (Always use **OC FUEL INJECTOR CLEANER** prior to refuelling to ensure thorough dispersion.) To achieve maximum benefits, **OC FUEL INJECTOR CLEANER** should be used on a consistent, regular basis.

### Benefits

- Superior Injector Cleaning
- Improved Engine Performance
- 300 ml lasts up to 5 tank fulls of fuel (250 litres)/2500 kms
- Lower cost/benefit ratio for greatest economy

### Packaging

20L, 1L

### Typical Physical Characteristics

Property	Typical Value
Solids Colloidal Graphite	4%
Specific Gravity	1.04
Fire Point °C	243
Flash Point °C	207
Pour Point °C	-17.8

**NOTE:** Values stated herein are typical and do not represent a specification.
